PHILIPPINES ISLAND HOPPING

ITINERARIES

PHILIPPINES

Are you looking for the most beautiful white sanded jungle-feel beaches in Asia? If yes, then Philippines is a country for you!

The country consists of many islands so it might be hard to pick where to go. I visited 2 of them - Boracay and Palawan and highly recommend both of them for different reasons. Boracay is has those white sanded beaches and is more popular amongst locals vs Palawan has amazing rock formations, lots of boat tours and is very backpacker friendly.

- **Why Philippines?** For stunning white sand beaches, Asian culture and island hopping
- **Top Things to see** - many beautiful islands and mountainous rock formations. Boracay for white sand beaches and el Nido for stunning boat trips
- **Best time to visit** - January to April
- **Safety** - There are parts of Philippines that are not safe to visit, especially south islands, however main tourist islands are fine.
- **Costs** - Very affordable. Somewhere mid-range South East Asian prices
